

Apply G/L Entries

The function allows to apply positive and negative General Ledger Entries, of the same account, to mark them as "closed".

This is very useful to analyze the balance of one account and view only the "open" entries.

G/L Account

Enable "Detailed Entries" in the G/L Account Card.

The screenshot displays the Dynamics 365 Business Central interface for a General Ledger (G/L) Account Card. The account is identified as 5830, 'Debiti per imposte sul reddito'. The 'General' tab is active, showing various fields for account configuration. A red arrow points to the 'Detailed Entries' toggle, which is currently turned on. Other visible fields include 'No.' (5830), 'Name' (Debiti per imposte sul reddito), 'Income/Balance' (Balance Sheet), 'Account Category' (Liabilities), 'Account Subcategory' (Passività ruolo paga), 'Debit/Credit' (Both), 'Account Type' (Posting), 'Totaling' (empty), and 'Balance' (-1.892,03). The 'Posting' section at the bottom contains fields for 'Gen. Posting Type', 'Gen. Bus. Posting Gro...', 'VAT Prod. Posting Gro...', and 'Default IC Partner G/L...'. The right sidebar shows a list of accounts with their respective types and balances.

Apply and unapply entries

Apply G/L entries in the same way of customers or vendors entries.
