Guide for myBrayns web site

- [Registration](#)
- [Company Information](#)
- [Software Download](#)

Registration

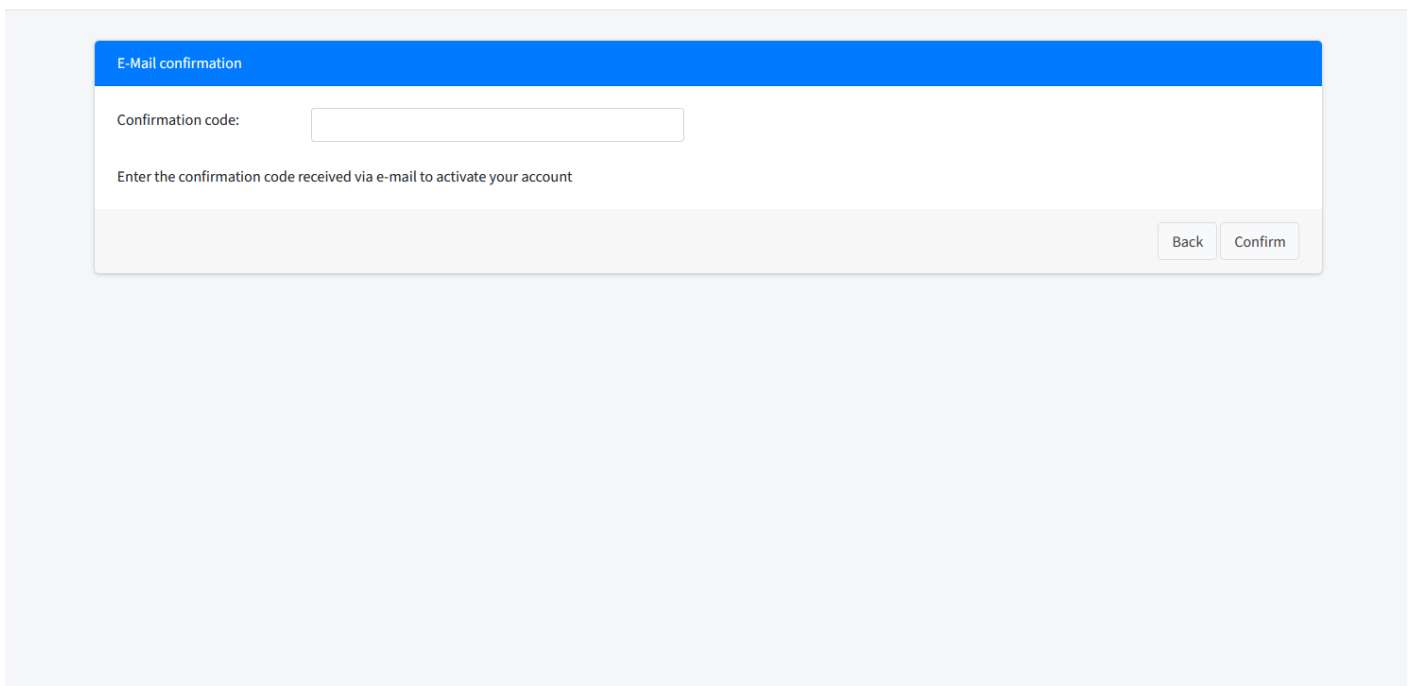

To access myBrayns you need to complete registration.

Go to <https://my.brayns.it/signup>

Enter your name and a valid e-mail (only company/enterprise account are allowed).

Wait for the confirmation code without closing the browser.

myBrayns

A screenshot of a web browser window showing the 'E-Mail confirmation' page of the myBrayns system. The page has a blue header bar with the text 'E-Mail confirmation'. Below the header, there is a label 'Confirmation code:' followed by a text input field. Underneath the input field, a message reads: 'Enter the confirmation code received via e-mail to activate your account'. At the bottom right of the form area, there are two buttons: 'Back' and 'Confirm'.

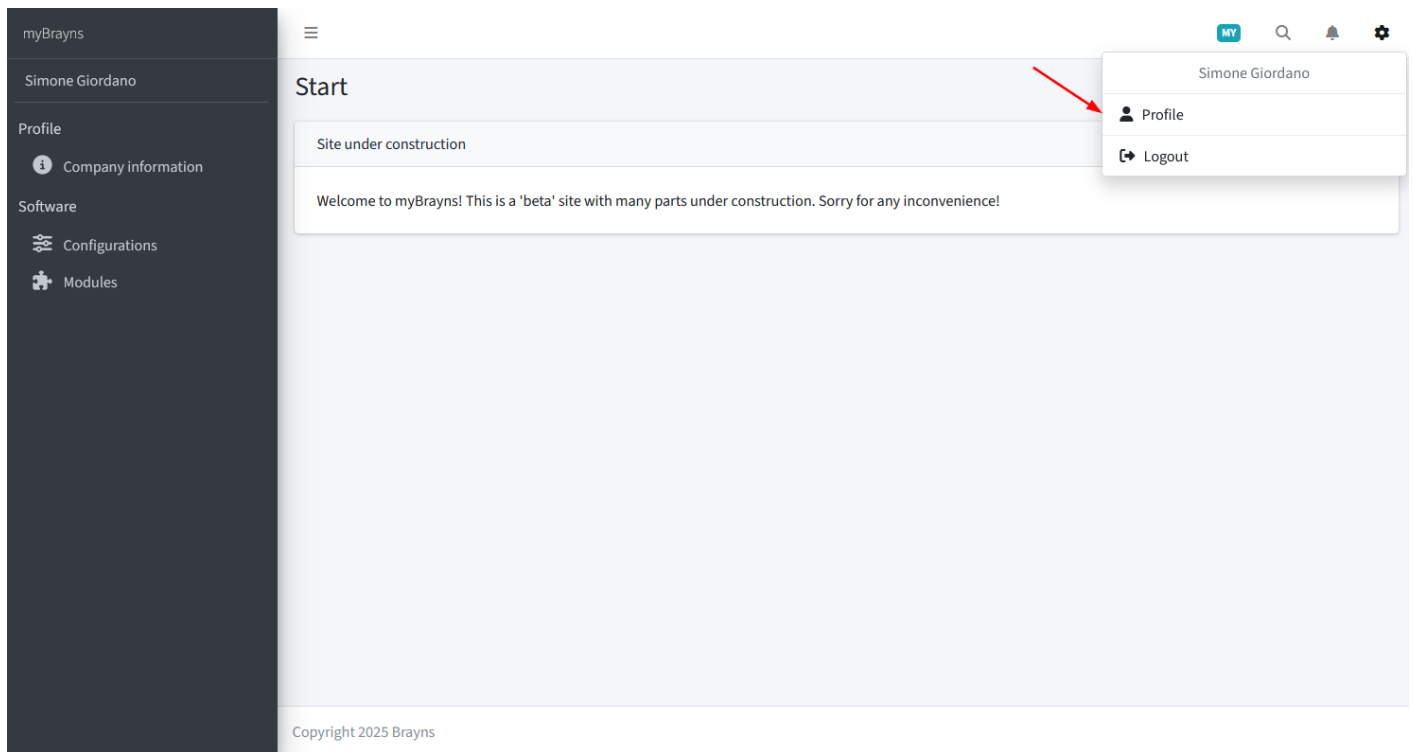

Enter the confirmation code and confirm the registration.

You will receive a random generated password for the first access.

Password change

You can change your password every time.

Click on the gear in upper right corner and select "Profile".

Form data are automatically saved and ready for the next logon.

Company Information

For access to reserved areas you must be identified by Brayns.

Click "Company Information" on the menu on the left.

To accelerate validation process please enter a valid VAT registration number. We automatically collect your data from VIES archive.

Software Download

Available modules

You can browse available modules selecting "Modules" on the left menu. You can follow the link of each module to open the KB guide.

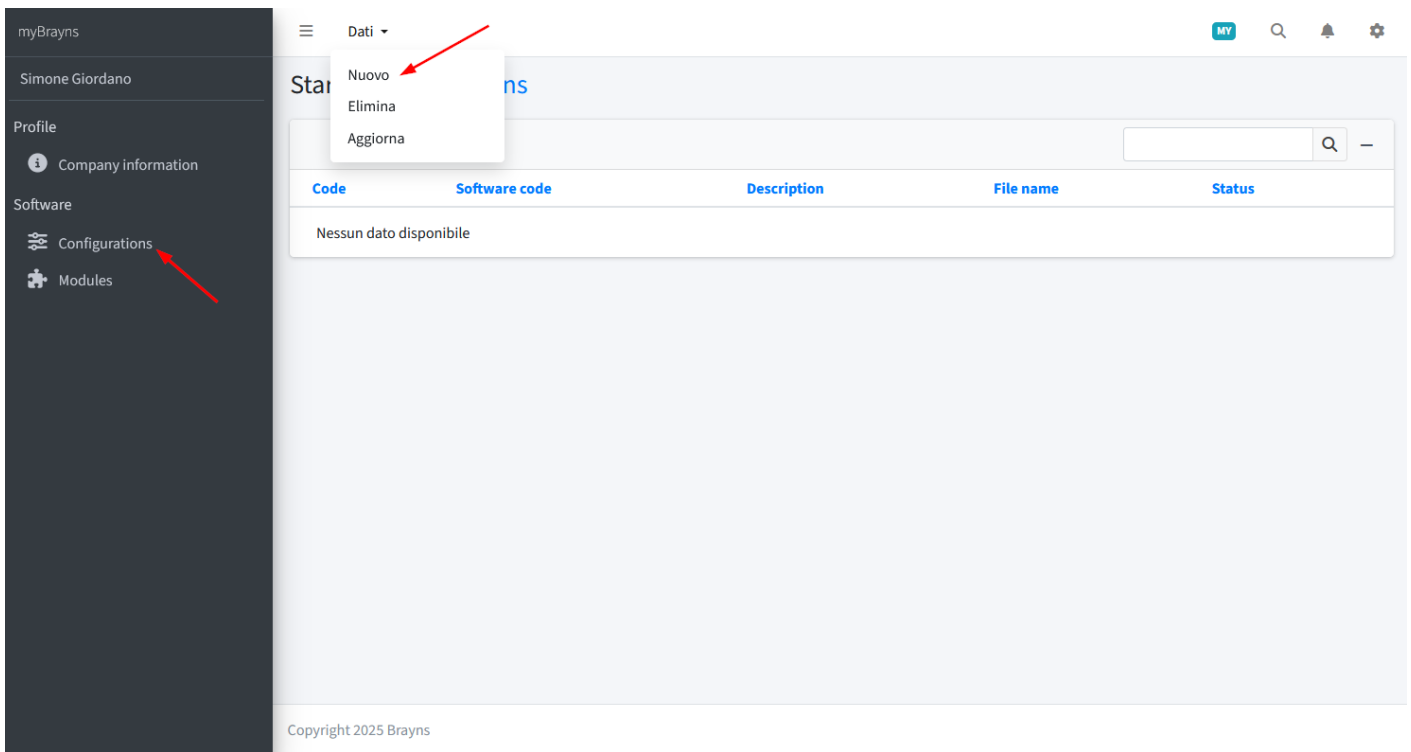

The screenshot shows the myBrayns software interface. On the left, a dark sidebar contains the 'myBrayns' logo, the user name 'Simone Giordano', and a 'Profile' section with 'Company information'. Below this is a 'Software' section with icons for 'Configurations' and 'Modules'. A red arrow points to the 'Modules' icon. The main area displays a table of available modules. The table has columns for a code, a module ID, a category, a description link, and a status. A red arrow points to the 'G/L Adjustment Entry' link in the 7th row.

Create a Configuration

Click on "Configurations" on the left menu. A configuration represents one Brayns software with the modules that you have selected.

On the upper menu click "New" and start the configuration.

Select the software, change the description and (if allowed) change APP name and publisher.

Each configuration has a unique ID.

Click on "New" on the modules list to select your modules.

Click on the shortcut on the top of the page to confirm and return to the previous list.

When the configuration is done press "Build" on the upper menu and wait for building process.

You will receive an email when the process is completed.

You can repeat the process several times to obtain the new version of the configuration.
