Prerequisites

Shaper is a multiplatform project.

For production or staging environment, you need only the latest "ASP.NET Core Runtime".

https://dotnet.microsoft.com/en-us/download/dotnet

For development, you need also the latest "Visual Studio".

https://visualstudio.microsoft.com/en-us/downloads/

If you want to use a local database, "Microsoft SQL Server" is recommended.

https://www.microsoft.com/en-us/sql-server/sql-server-downloads

Cloud or On Premise

Shaper is based on ASP.NET so you can host it where you want:

- On Premise with Windows and IIS
- On Premise with Linux and Nginx
- In a Docker environment
- On Microsoft Azure
- ...and so on!
